

# CLEANING CARDS

For: Pay on foot machines; Public transport; ID, payment barcode devices; Label printers

Studies have shown that routine preventative maintenance with easy to use cost effective cleaning cards aids operational efficiency, reduces service calls and increases the longevity of your equipment. When devices are located in areas that are exposed to weather or dirt conditions, cleaning should be done frequently. Failure to clean can cause system failure, device downtime and disruption to operations. Our technical cleaning products include:

Note acceptor Cleaning Card  
featuring Waffletechnology

PART# EW 3-BMB15M

Card Reader Cleaning Card  
featuring Waffletechnology

Part # EW3-HSCB40

# PLASTIC CARDS

Magnetic Stripe or Barcode; RFID; Thermal Face; Suitable for a range of applications

We offer PVC Cards with:

- magnetic stripe
- barcode
- chips
- numbering
- holograms
- encoding
- signature panels
- embossing
- RFID

...and many more solutions.

Our standard cards correspond to the international ISO standard with dimensions of 86 x 54 mm. These plastic cards are multilayered. Printing is done directly on to the plastic material. Afterwards the cards are laminated with a full glossy and scratch resistant PVC foil in order to protect the colours and the card.

# PERMITS

Car Park & Resident Permits; Cost Effective & Secure; Long term & temporary parking; Easy to indentify; Simple to Use

We can offer a whole range of parking permits which are fully customisable, cost effective and secure. Using full colour printing technology our permits can be of standard design or more generic to specific branding or text. We can also add numbering, foils and holograms to ensure your permits are more secure and deter fraud.

Our permits can be supplied as multiples on A4 sheets, as individuals or in books. We can also give the option of integrated laminate, eliminating the need for permit holders resulting in reduced costs and improved service.

Scratch card permits are ideal in providing a secure permit to park and can be used to complement any permit scheme. The simple to use permits can also prove effective with localised parking schemes, retail areas and visitor parking schemes. They can be fully bespoke allowing a design to be created to your specific requirements.

# PCN CARRIERS

Polythene or Polycoated paper; Fully Personalised; Ticket Protected from Elements; Easily Visible

PCN Carriers provide a complete solution of protecting the enclosed ticket from the elements, and can be used for either hand-written or thermal tickets. They are also key to improving collection rates while reducing loss and appeals by displaying clear information to offenders.

These envelopes can be personalised to carry a specific message or corporate image, and the self-adhesive strip to the reverse ensures that the envelope stays firmly in place.

# PARKING SIGNS

Formats: 3 mm Composite Dibond; 4mm Correx; 5mm Foamex; 3mm Polycarbonate; Adhesive Vinyl Stickers; Posts & Fixings

Car Park signs are manufactured from materials to suit your specification. Our range of parking signs are designed to assist your parking services efficiently and effectively.

Pay here cones are available in any colour. We offer a choice of 3 standard types of cone: two sided wall fixing, 3 sided post fixing or four sided post fixing or fabricated to your specification.

Car park directional signs are available single or double sided and can be manufactured to any size and specification. Signs can be either post or wall mounted and we offer a full design service.

We offer a comprehensive range of posts and fixings for any application. Our range of products include sign channels, back to back clips, universal channel clips, offset T brackets, banding tools, strap and buckles, tamtorque clips and cable ties, providing solutions for both interior and exterior signage requirements. Our standard posts are manufactured from aluminium and anodised to AA25 finish or can be powder coated in most RAL or BS 4800 colours to suit your needs.

# ICE ALERT SIGNS

Ice Early Warning System; Accident risk reduced; Inexpensive and effective; Custom designs

Get a grip on Winter. Reduce the risk of costly slip and fall accidents on your property by installing an inexpensive and effective IceAlert system.

IceAlert is a new ice early warning system that can be used in any outdoor area, including car parks, railway stations, depots, roads, hospitals, retail locations, airports, walkways and outdoor workplaces. The signs work by having a temperature sensitive blue reflector which gradually revolves in to sight when the temperature reaches 2°C and by -1°C is in full view. It requires no power and is virtually maintenance free.

Protect yourself, customers, visitors and employees from ice related slip and fall accidents and injuries by installing IceAlert this year at your exit doors, on your walkways and in your parking areas.

The background signage can be designed to brand guidelines, carry your logo and fit seamlessly alongside existing signage.
